

Stage 1 consultation on our early proposals

National Grid Electricity Transmission is holding the first stage of consultation to hear your views on our early proposals for Eastern Green Link 5 (EGL 5) – a new primarily offshore high voltage electricity link, with associated onshore infrastructure, between Scotland and England.

The link would be primarily offshore, with proposed onshore infrastructure in England located within East Lindsey district in Lincolnshire and offshore infrastructure in English waters. Onshore infrastructure includes underground cables and one converter station.

EGL 5 would transport enough clean energy from Scotland to power up to two million homes in the Midlands and South of England. By doing so, it would play an important role in building a more secure and resilient future energy system, and decarbonising the UK.

This stage 1 (non-statutory) consultation will run from 12pm noon Tuesday 13 May until 11.59pm Monday 23 June 2025

Public information events			
Location	Date	Time	Address
Huttoft	Thursday 22 May 2025	2pm – 7pm	Huttoft Village Hall, Sutton Rd, Alford, LN13 9RG
Alford	Saturday 31 May 2025	2pm – 7pm	Alford Corn Exchange, 9 Market Place, Alford, LN13 9EB

Webinars		
Name	Date	Start time
Webinar 1: Offshore proposals	Friday 23 May 2025	12pm – 1pm
Webinar 2: Onshore proposals	Thursday 5 June 2025	7pm – 8pm

More information can be found on our project website, where you can:

- Read more about our events, including how to sign up for a webinar
- Access all our consultation materials and find out where you can view paper copies
- View detailed maps of our project
- Learn more about our ‘team call-back sessions’
- Provide your feedback on our proposals.
